ETS Support Services for Aircraft Operators

Solution Offering 2012

Tasc4aviation GbR

EU-ETS Communication Services for AOs

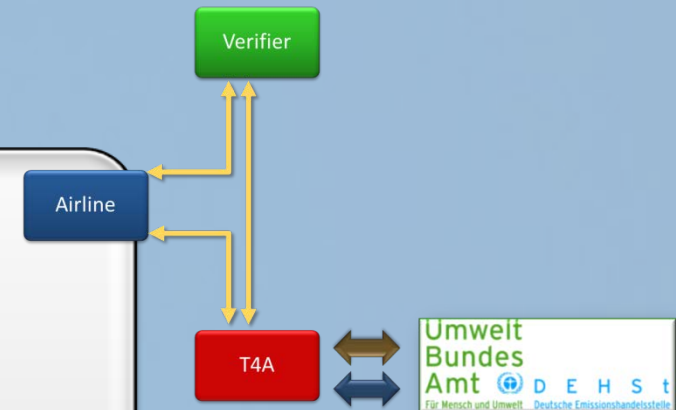

T4A

EU-ETS Communication Services for Aircraft Operators:

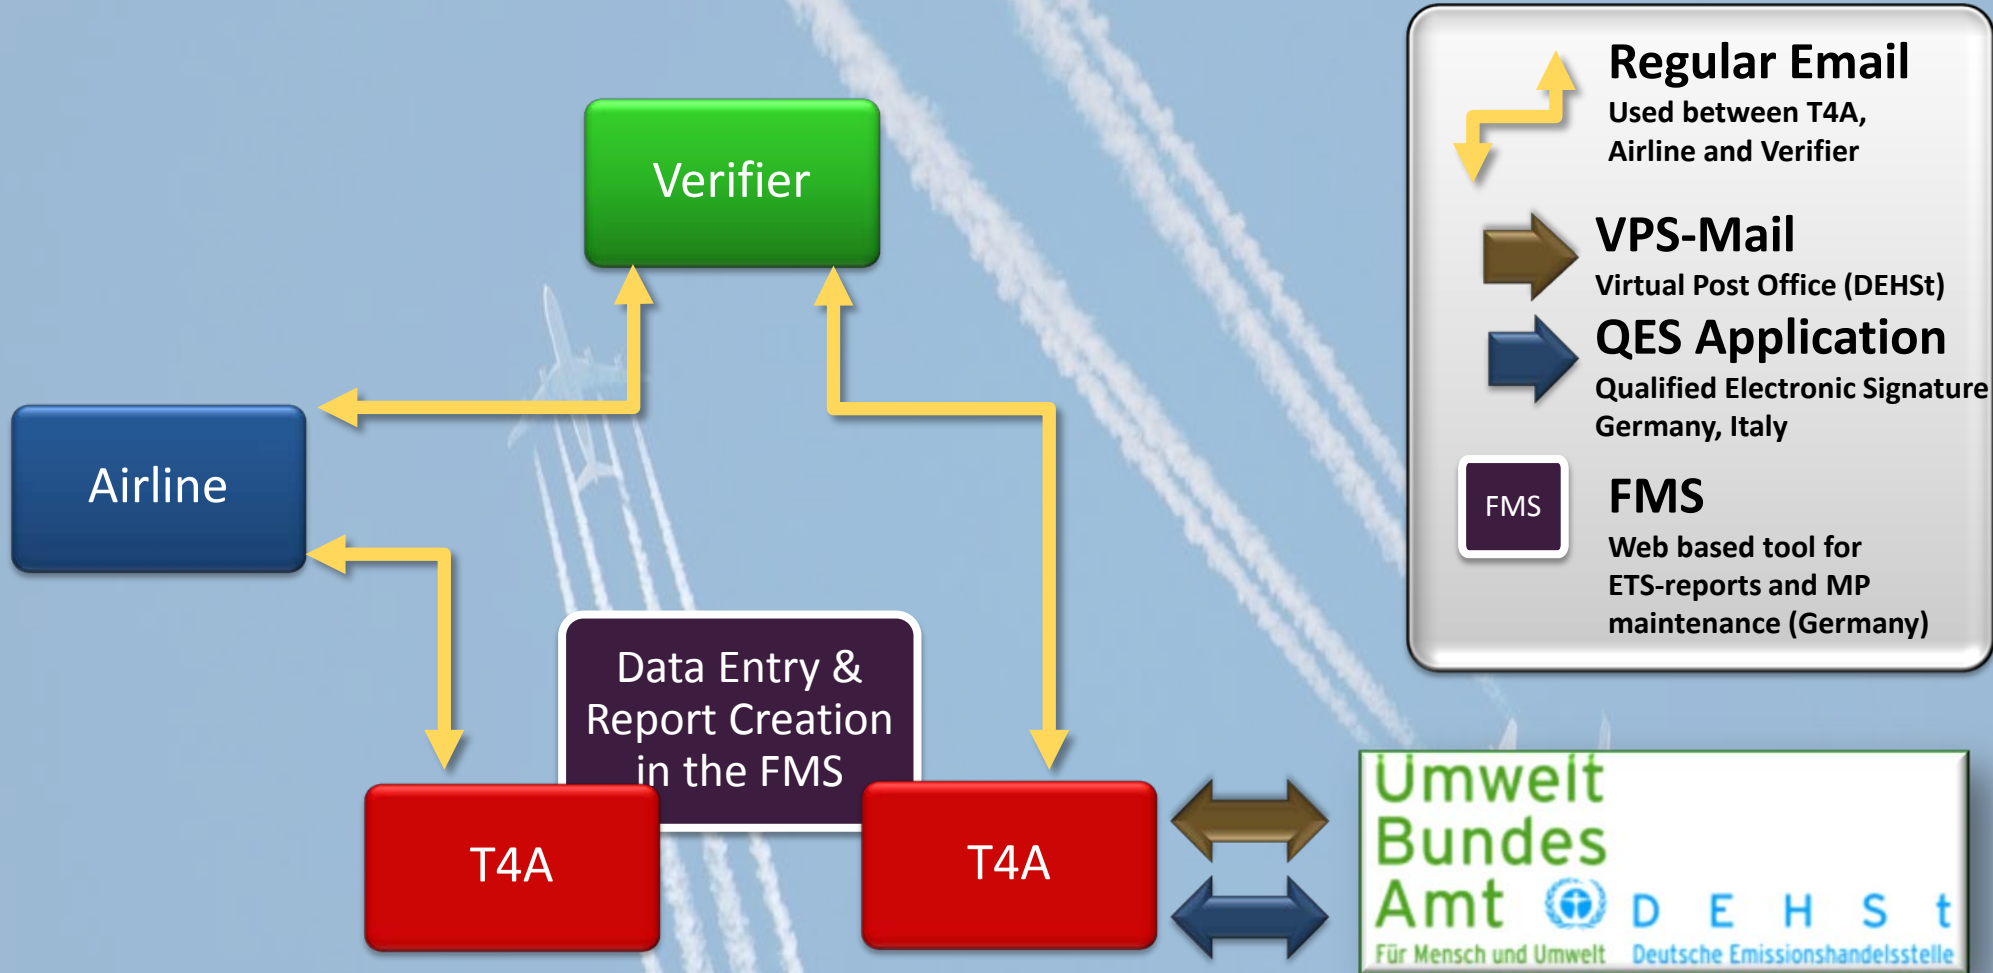

In this offering T4A will operate the VPS on behalf of the AO and process all incoming and outgoing messages:

- Incoming messages (from the C.A. to the operator) will be extracted from the VPS and routed via regular email to the AO
- Outgoing messages (from the AO to the C.A.) will be received via regular email, entered into the VPS, signed with the QES (Qualified Electronic Signature) and send to the C.A.
- T4A will act only as an intermediary and take no responsibility for the message content

FMS Data Entry and Reporting Services

T4A

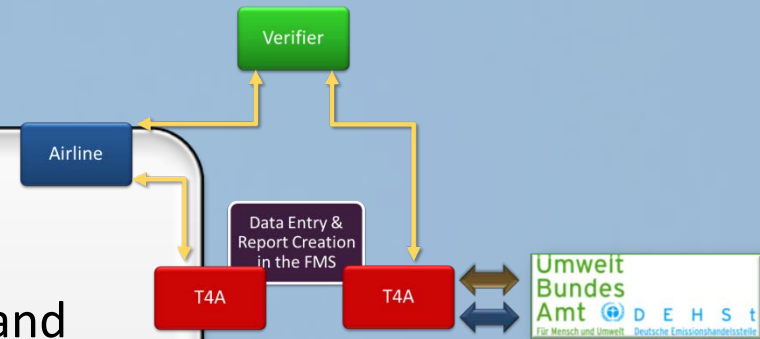

FMS Data Entry and Reporting Services

T4A

FMS Data Entry and ETS Report Generation Services :

In this offering T4A will use the flight data from the AO and populate the FMS for to create ETS reports:

- T4A will create the annual emissions report (possibly also a TKm report) based on information received from the AO
- T4A will create and maintain the monitoring plan(s) based on information received from the AO
- T4A will forward reports and or monitoring plans to the verifier by assigning the access rights to the designated verifier
- T4A will act only as an intermediary and take no responsibility for the report content or the monitoring plan data

Terms and Conditions

Duration and Pricing:

- Operators can subscribe for both services on an annual term and the service will prolong itself each year until cancelled
- Pricing for FMS Data Entry Services is dependent on volume
